**Wallace Williams**

Dear Society Hill Homeowner,

In two short years, thanks to the overwhelming support of you the homeowners in board elections, we've managed to reverse the dismal pattern of closed association government, apathetic maintenance, and almost-guaranteed maintenance fee increases each year (67% from 2000 to 2005).

To most homeowners living in Society Hill, the results have been noticeable: an end to the condo fee explosion and back-room board decisions, a new maintenance person, a new property manager, change of landscaper and attorney, sensible rules and regs, and hands-on oversight of management by new board members committed to listening to the people in the spending of our nearly \$1.2 million yearly operating budget.

But you say, what about controlling the fees? Here's where once again you the homeowner have to step up in this election to **continue the change**. Read why on the other side of this card.

Sincerely,

Kevin Wine, Greg Machyowsky, and Other  
Concerned Homeowners
